DETAILED ACTION

Election/Restrictions

Newly submitted claims 3 and 4 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 3 and 4 are drawn to the embodiment depicted in Figure 8, and which require the pipes to be coated with plastic and plastic welds joining the first and second cuffs to the respective pipes, and the cuffs to have metal cores embedded therein.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 3 and 4 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Kanao (US 5,429,397).

Kanao discloses a pipe assembly comprising first and second metal pipes (4; note the cross-hatching indicates that they are metal, see MPEP 608.02) having respective first and second ends, a first plastic cuff (H) molded along the periphery of the first pipe and a mating second plastic cuff (H) molded along the periphery of the second pipe end. And given the broadest reasonable interpretation, the first plastic cuff comprises a tongue (B) and the second plastic cuff comprises a groove (8), the cuffs forming a tongue and groove joint.

Response to Arguments

Applicant's arguments with respect to claims 1 and 2 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3679

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
